Ormanlar A.Ş. was found in 1957. We are distributors of 12 hose companies and pneumatic fittings from all around the world (Industrial hose, Hydraulic Hose, Polyamide Hose, Thermo Plastic Hose, Stainless Steel Hose, Teflon Hose, Paint Hose, Polyurethane Hose and fire sleeves). And also we are distributor of Finn-Power Crimping machines of the middle-east ,Balcan countries and TURKEY.

Ormanlar Hose Assembly Center & Hydraulic Hose Fitting Factory. Manufacturing of Hydraulic fittings & adapters and hose assemblies for steel and general industries. Also we produce special requirements for customer demands according to samples and drawings. Ormanlar bending pipe for automotive and general industries.

All activities mentioned above have been fulfilling in our own premises with hi-tech during both manufacturing and assembling including the necessary testing purposes. Our Hose Assembly center is designed with Industry 4.0 machines.

Ormanlar has been certified with ISO 9001 Manufacturing systems.

Ormanlar Warehouse

Ormanlar Hose Assembly Center

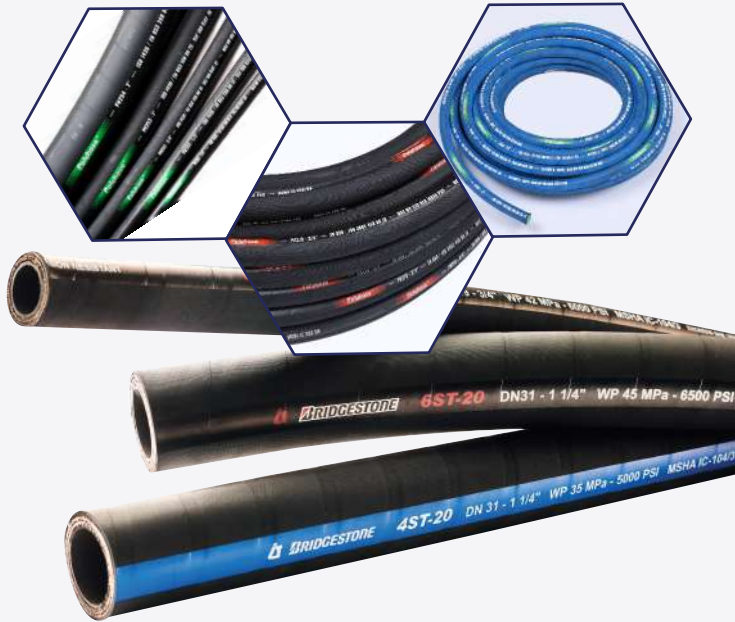

Ormanlar Fitting Production and Pipe Bending Factory.

Hydraulic Hose Line

- High Pressure Hydraulic lines up to 420 bar. (15N-25N-45H-R13-R15)
- 1800 Bar Water jetting hose assembly.
- High Pressure Hose Solutions according to your projects. Up to 8" Hose assembly center according your hose assembly request with all kind of connections.

Hose Fitting and Pipe Bending

- Hose fitting, Hose ferrule and Adapters production according to your drawing. (Carbon & Stainless Steel)
- Pipe bending and Pipe assembly according to customers request.

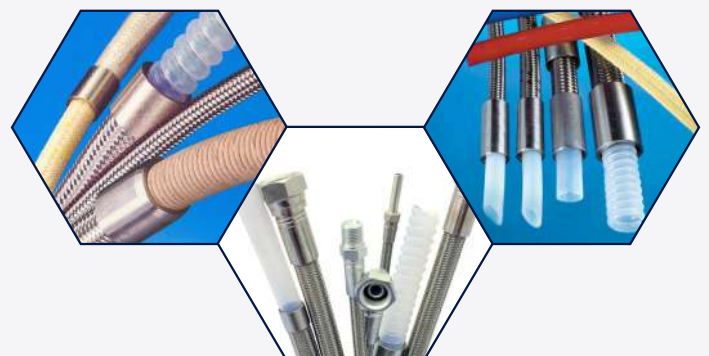

Termoplastic Hose Line

- R1-R2 wire braided termoplastic hose.
- R7-R8 Textile and aramid braided termoplastic hose.
- Airless Termoplastic paint spray hose.
- 700 Bar Termoplastic Jack Hose.
- DN2 Minimes (microbore) hose.
- R8 Termoplastic Non-Conductive hose.
- 345 Bar Termoplastic CNG Hose.

Teflon Hose

- Standard Smooth type one wire PTFE Teflon Hose.
- Standard Smooth type double wire PTFE Teflon Hose for High pressure lines.
- Convulated Type one wire PTFE Teflon hose for flexible lines.
- High wall thickness and Aramid braided one wire teflon hose for gas lines.

Special Solutions for Steel Industry

- Atlantex hose and cable fire sleeves for High temperatures.
- Electrical resistance Cooling water hose External glass fibre braided hose. Ceramic hoses for High abrasive materials.
- Non Conductive All kind of High and low pressure hose.

Stainless Steel Metal Flexible Hose

- Very useful for Ultra High Temperature lines where aggressive gas and chemicals in use.
- 304-316 and 321 Type Metal flexible hoses.
- We can produce the hose with extra protections such as glass fibre and silicon cover or extra wire braid.

Industrial Hose Solutions

- Chemical hoses (UPE ,XLPE and EPDM)
- Shot Blasting Hose
- Air and water hose
- Oil and Fuel hose
- Multipurpose EPDM Hose
- Conductive and Non-Conductive Hose
- Steam Hose
- FDA Approved Food Hose
- LYOD and RINA Certified Marine Hose
- Composite Hose

Hose Protection Sleeves

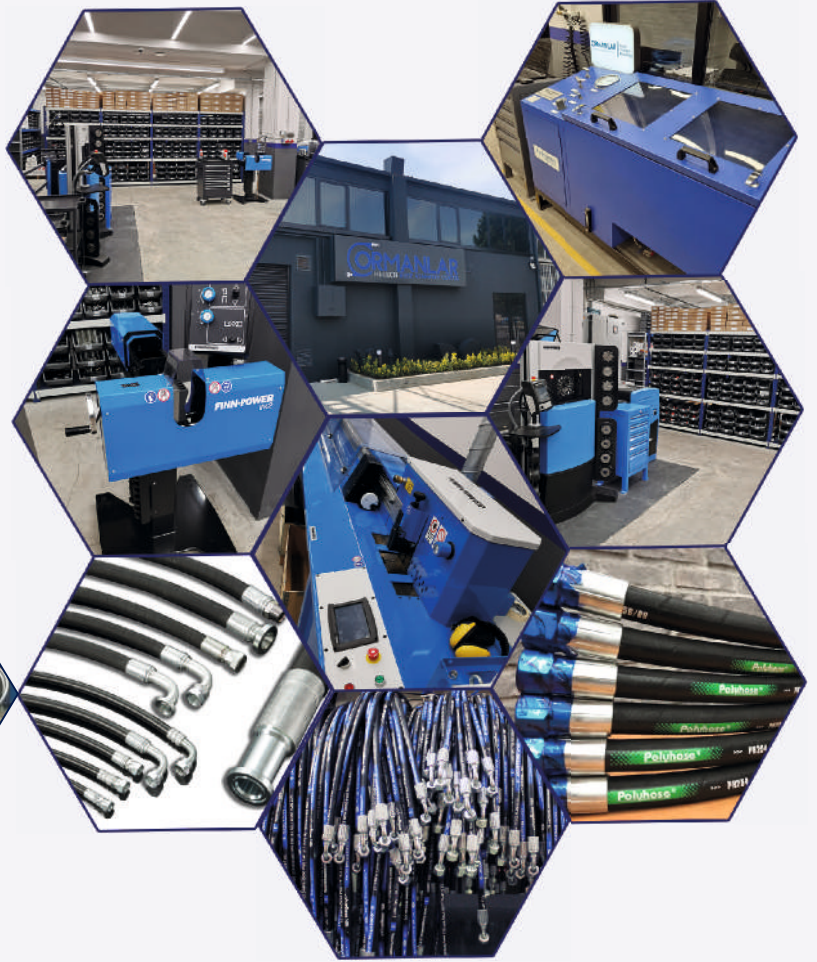

- Spiral Hose Protections up to 150mm
- Textile Hose Sleeve up to 127mm
- Fire Sleeve for High Temperature

Ormanlar Hortum Industrial 4.0 Hose Assembly Center

Our hose assemble center is fully equipped with Finn-Power hose production machines.

- FP 165 8" Hose Crimping Machine.
- FP 120 3" Hose Crimping Machine.
- CM75 QT Automatic Hose Cutting Machine.
- F550 2" Internal and external hose skiving machine.
- IM2 Hose Insertin Machine.
- TB ECO 2000Bar Hose test bench.
- Ultraclean Hose Cleaning machine.
- Ultraclean Hose Sealing machine.

FINN-POWER Mobil Service And Container Hose Crimping Center

- Hose Mobile Service van is 7/24 accessible according to your urgent request in emergency situations.
- Container Hose Crimping center is very useful for Construction, Mining or Shipyard areas where you need hose in house for a period of time.

FINN-POWER Hose Crimping, Cutting, Skiving and Testing Machines

- Ormanlar is distributor of Finn-Power more than 40 Years. Finn-Power made in Finland.
- Ormanlar is distributor and approved service for Turkey, Middle East, North Africa and Turkish republics.
- Hose Crimping machines 1" to 20"
- Hose Cutting machines up to 4"
- Hose Skiving machines up to 2"
- Hose test bench up to 4000Bar
- Hose cleaning machines up to 4"
